Autocross

- Leads – Greg Hartke & Mark Hublely
- Typical Numbers – 8 events with about 65 people per event
- Autocross events are low-to-medium-speed time trials against the clock that offer a fun, affordable, and safe way to hone your driving skills and explore your car's handling. Each run teaches you more about your car's acceleration, braking, and cornering characteristics so that you're soon enjoying the challenge of cutting seconds (and tenths) off your time. Autocross is a test of driver skill and handling, not just horsepower! ***NEW PCA MEMBERS receive ONE Free Autocross***
